Job Application letter

From **Haileliul Mulu Tegegne**

Graduated with a bachelor degree in Computer Science from Debre Markos University (DMU), looking for an intermediate level position that will enable me to apply all the skills and knowledge I acquired during my studies. As a student, I was able to gain experience in many areas related to Computer Science and greatly enjoyed working with interdisciplinary teams in challenging assignments.

While studying, I was commended by my teachers due to my **personal strength** and continuous way of working without getting tiredness easily. I was also highly involved in website development **Projects** and I gained experience in programming and software maintenance. I also improved my profession capabilities while further growing my passion and enthusiasm for **Computer Science.** I believe that my strong communication nature, as well as my other professional qualities, will enable me to fulfill my potential while learning as a **computer science student**.

I am excited about the opportunity to join and to contribute to your organization's overall mission to alleviate the issues of the organization. I feel confident that a direct, in-person conversation will determine if I am a compatible candidate for your position, and I would welcome the chance to prove this. Please contact me via phone or email to organize a convenient meeting date and time. Feel free to also reach out if you require any additional information or would like any references from some of my teachers or supervisors. Thank you for your time, and I look forward to meeting you in the near future.

With Regards,
Yours Sincerely,
Name: **Haileliul Mulu Tegegne**
